# DEFAULT CONTROLS

# DEMON KING

In Eiroku 3 (AD 1560), the warlord Nobunaga Oda defeated his rival Yoshimoto Imagawa in Okehazama. At the moment of supreme victory, Nobunaga was felled by a random arrow shot by one of Imagawa's bowmen.

Against all reason, his demise did not mark the end of Nobunaga's fate. The evil he had wrought while on earth had attracted the notice of the demon legions. Soon after his death, he was resurrected by the power of demons residing deep within the netherworld.

With Nobunaga as their leader, demons began stalking the earth and assaulting human beings.

A young samurai named Samanosuke came to the fore. After numerous perilous battles he finally defeated the King of Demons.

Yet the nightmare, like Nobunaga himself, would not die. Nobunaga has ascended the demon throne. As King of Demons, he has vowed to achieve his ancient ambition of forcing all Japan under his oppressive rule.

*It is now several years later...*

A young warrior, Jubei, returns home to his remote and once vibrant village, now in ruins, destroyed by Nobunaga's minions. With vengeance in his heart, Jubei launches upon an epic and magical quest, which will reveal his ultimate destiny. Along the way, he must earn the respect of confidants to help him battle Nobunaga's army of demons, overcome an onslaught of traps and defeat the King of Demons.

### OGRE POWER GAUGE —

The color bar decreases when you use Special Attacks.

### WEAPON ATTRIBUTE —

Attribute of the weapon currently equipped.

### SOUL COUNTER —

### PURPLE SOUL STOCK —

Number of Purple Souls you currently have. Once you absorb five Purple Souls, your character transforms into Onimusha. You lose all Purple Souls after transformation.

## BASIC ATTACK: □ BUTTON

Your character will attack the closest enemy. As you hold down the **R1** button, your character will draw a sword and can step quickly in four directions. This enables you to attack an enemy's back or dodge an enemy's attacks more successfully.

## SPECIAL ATTACK: △ BUTTON

If you don't have the correct ammunition, you cannot ready your weapon, in which case you should change weapons. With either weapon equipped, hold down the **R1** button and press the **□** button to use it.

## ADDITIONAL WEAPONS

You can also find, purchase or receive additional weapons.

**MIIKE DENTA** — Jubei has this sword initially. It was crafted by the famous blacksmith Miike Denta.

**YAGYU VEST** — Woven in a secret pattern handed down through generations in the Yagyū clan, this vest is lighter and tougher than it looks. Its defense will increase if you enhance it.

**YAGYU LEGGINGS** — A combination of kneepads and foot wraps, this lightweight armor allows its wearer to move easily. Kick damage will increase if you enhance this item.

**YAGYU GAUNTLETS** — The gauntlets are extremely lightweight so that the user can swing the sword easily. By enhancing this item, your character can charge power more quickly.

There may be other weapons to find ... keep your eyes open.

# U S I N G O H G I

## CHARACTER CHANGE

Sometimes a game situation occurs where you control a different character, other than Jubei. During this time, your basic controls are the same but your character can neither enhance items nor transform into Onimusha. If the sub character's vitality drains during the event, your game is over.

# SOULS
